

AH-C452

In-Ear Headphones

DENON

The AH-C452 are in-ear headphones that provide many hours of listening comfort.

They are endowed with such features as the Acoustic Optimiser which is a technology that is used in all of DENON's headphones, and hybrid housing that absorbs vibrations. This offers listeners the exceptional acoustic performance they expect of a quality audio brand like DENON. The ergonomic shape of the AH-C452 fits snugly in the ear for maximum comfort.

Features

- Acoustic Optimiser achieves optimum acoustic characteristics by adjusting the sound pressure balance in front of and behind the diaphragm
- Dynamic sound from 11.5 mm Neodymium magnet drive units
- Hybrid housing which reduces unwanted mechanical vibration and softly fit in ears
- Ergonomic design, ensuring a snug fit in the ear and maximum comfort
- Canal type in-ear headphone reduces external noise and lets listeners enjoy their music
- Cables of equal length for left and right channels, to maximise sound quality
- 0.7 m OFC cable with 0.8 m extension cable
- Cable clip included

- Gold-plated stereo mini-jack
- A headphone jack that is compatible with the Apple iPhone
- Convenient carrying pouch
- Comes with 3 sizes of ear pieces, which allows the user to select the best size for their ears
