Mezzo 1 Stand mount Speaker

Building on the design innovations and successes of its flagship Performance range, Mordaunt Short is proud to bring Mezzo to the market. Suitable for use as either a satellite speaker in a surround sound system or as a stand mount speaker in a stereo system, the Mezzo 1 can produce a room filling sound beyond the capabilities of most compact stand mounts. The curved cabinets of the Mezzo range prevent build up of standing waves, whilst the structural cabinet and driver bracing produces a commanding and accurate soundstage.

Mezzo uses the acclaimed ATT: Aspirated Tweeter technology, to deliver levels of clarity and details that put its rivals to shame. Coupled with the Continuous Profile Cone aluminium bass driver, the Mezzo 1 capably combines ground breaking technological developments, with Mordaunt Short's 40 years of loudspeaker expertise

Specifications

Recommended amplifier power	15-100 watts
Drivers	(1) 5.25" aluminium CPC mid/bass driver (1) 1" ATT aluminium dome tweeter
Impedance (ohms)	4 - 8 ohms
Frequency response	55Hz - 22kHz
Dimensions (h x w x d)	300 x 204 x 255 mm 11.8 x 8.0 x 10.0 inches
