NEW PRODUCT

Performance HDMI-E

Features:
• 26AWG 99.999% Oxygen Free Copper conductors
• 59% more copper area than "standard" HDMI cables*
• HDMI Ethernet Channel
• Audio Return Channel
• Authorised Test Centre certified High Speed HDMI Cable
• Pixel Clock 340MHz, Data rate 10.2Gb/s
• 1.4 and 3D TV Compatible
*assumes 28AWG copper in "standard" cables
†QED laboratory tested using pseudo random bit pattern at the speed indicated

Stock Code:
QE2000 QED PERF HDMI-E 1M
QE2005 QED PERF HDMI-E 1.5M
QE2010 QED PERF HDMI-E 2M

Performance Optical Digital

A high quality medical grade Optical audio interconnect to connect your DVD player, digital tv box or games console to your AV amplifier or receiver.

Features:
• Medical grade fibre optic core
• Protective PVC outer jacket
• 24K gold plated Toslink connectors
• Precision engineered plug with integrated grip

Stock Code:
I-QEDPOPT/1 PERF OPTICAL AUDIO - 1M
I-QEDPOPT/3 PERF OPTICAL AUDIO - 3M
I-QEDPOPT/5 PERF OPTICAL AUDIO - 5M
I-QEDPOPT/10 PERF OPTICAL AUDIO - 10M

Performance Digital Audio

Soon after its release the QED Performance Digital Audio cable won the 'Best digital audio cable' award from What Hi-Fi? Sound and Vision. This clearly highlights QED's determination to constantly produce industry best products.

Features:
• 99.999% Oxygen Free Copper conductors
• Co-axial construction optimised for true 75Ω impedance
• Twin electrical screening for enhanced signal integrity
• 24K gold plated RCA connectors
• Precision engineered plug with integrated grip

Stock Code:
I-QEDPDA/1 PERF DIGI AUDIO - 1M
I-QEDPDA/3 PERF DIGI AUDIO - 3M
I-QEDPDA/50R PERF DIGI AUDIO - 50M REEL
P-QEDPDARCA/10 PERF DIGI AUDIO - RCA (10)

NEW PRODUCT

Performance HDMI-E Super Speed

Features:
• 24AWG 99.999% Oxygen Free Copper conductors
• 150% more copper area than "standard" HDMI cables*
• HDMI Ethernet Channel
• Audio Return Channel
• Authorised Test Centre certified High Speed HDMI Cable
• Pixel Clock 340MHz, Data rate 10.2Gb/s
• Independently† tested to 15.3Gb/s
* assumes 28AWG copper in "standard" cables †QED laboratory tested using pseudo random bit pattern at the speed indicated

Stock Code:
