WHAT HI-FI?
SOUND AND VISION

PURE AVANTI Flow
February 2009

iPod dock*

Downward firing subwoofer

Context-sensitive controls

EcoPlus

A complete 'connected' table-top digital audio system, AVANTI Flow supplements DAB and FM radio, internet content (thousands of stations, podcasts, 'listen again' programmes and PURE Sounds) and music streamed from your computer with a dock for your iPod and hi-fi quality audio.

AVANTI Flow features PURE Clearsound™ a new digital end-to-end audio solution using high-quality Class D amplifiers and digital audio shaping technology to provide clear dynamic audio, higher volume levels and low power consumption. Together with AVANTI's powerful 5.25" subwoofer, Clearsound generates 75W of room filling hi-fi sound with incredible detail.

Ideal for the lounge, or wherever you do most of your listening, AVANTI's stunning good looks will ensure it pride of place. Functional as well as beautiful, it has a fully-featured remote control; easy to use, intuitive controls; a large graphical OLED display; quick access to your favourite stations with 30 DAB and 10 FM presets; and unlimited Internet favourites via its companion website www.thelounge.com.

* iPod not included

Wi-Fi, DAB and FM with RDS

Add new features as they become available via Wi-Fi (or USB)

PURE Clearsound – digital end-to-end audio solution

75W
R · M · S

Hi-fi quality audio (75W RMS total) with 5.25" subwoofer

Listen to your iPod® while it charges

Flow - much more than a radio

Internet radio

Enjoy a world of global, national and local radio

What are you passionate about? Algerian Rai? Zairean Soukous? Gaelic football results? The New York Knicks' scores? Current events in Poland? News from India? Tune-in to stations all over the globe and discover a world of content, some familiar and some brand new. Wherever you are and whatever you like, we've got it covered.

Listen again†

Hear your favourite shows when you want them

Missed an episode of your favourite radio programme? Imagine catching up with your favourite shows in the kitchen, the lounge, the garage, or anywhere you're in range of your wireless network. And there's absolutely no need for a PC! Radio on demand has never been this easy.

Podcasts

Discover thousands of programmes available anytime

Listen to highlights of your favourite breakfast show, study a foreign language in ten episodes, listen to DIY tips, or play a bedtime story for the kids. There's an amazing variety of content and thousands of podcasts to discover. No PC or iPod required!

† Available from radio stations that have an online listen again/archive service, including most BBC stations.

DAB and FM

Listen wherever DAB or FM are broadcast

The Flow range are fully-featured DAB and FM radios, so you can listen to DAB or FM radio without a Wi-Fi connection. DAB is easy and convenient to use, has more stations and digital-clarity; FM with RDS is great for local stations and areas with reduced DAB coverage.

Media streaming

Listen anywhere to all the music stored on your PC

Break free from the computer and listen to your entire digital music collection wirelessly. If you've got a computer or network storage device connected to your Wi-Fi network you can stream music from it direct to your Flow. And just like on your computer you can browse through albums and playlists, pause and seek within tracks.

PURE sounds

Sounds to stimulate, inspire and relax

Create an atmosphere to match your mood with a library of evocative sounds. From birdsong and a mother's heartbeat to cityscapes and rolling thunder, tune into PURE sounds to stimulate your imagination, help you concentrate or just find a space to relax.

Get connected

The Lounge - www.thelounge.com

Visit the PURE Lounge to listen online, view recommended content and save your favourite stations, programmes, podcasts or unique PURE sounds.

Powerful and simple to use search facilities will help you to find the content you want. Simply enter any combination of name, language, country, genre or quality and you'll be sure to find something worth listening to. You can also find out what's new and get recommendations for things you might like to listen to.

Using your AVANTI Flow with the Lounge makes connected listening personal, enabling you to tailor your own unique, easy access listening profile from the vast array of internet content.
