Nimis Limited Edition 10th Anniversary

*Nimis*

# 10<sup>th</sup>

Limited Edition 10th Anniversary

The Nimis was introduced to the Hi-Fi World in 1996 and went on to become a huge success with the public and press alike, even earning itself a place in "Sound Design" by Mitchell Beazley. Now after a decade of triumph we are proud to present the Nimis LE. The Limited Edition version is achieved by refining our engineering and by hand matching the specially selected components under a strict quality control.

This extra attention is characterised by our custom made power supply, this features more than double the power giving each channels pair of EL84/6BQ5 a glorious 20 Watts of push pull output.

Produced in a strictly limited run of 499 units each one is uniquely numbered with a certificate of quality and authenticity.

The Nimis Limited Edition 10th Anniversary version is completely handcrafted in Italy as only Synthesis know how.

The Nimis LE - as individual as you...
