ART IN MUSIC

Vertigo

80 Watts of pure emotion

Presentation

Vertigo

These things of beauty are not arrived at by accident, all of their flowing features are bound by the one outcome our design.

This unique combination of materials both natural and manmade are brought together not just as a product, but as something to be treasured.

This interpretation of hand crafted design is achieved in a way only the Italians sense of flair and taste knows how to give.

Our technology is designed to innovate and yet be simplicity to use.
Built for the World with a spirit Made in Italy

Shapes, materials, finishes, technologies, all joined by a constant thought: designs and sounds that enriches your quality of life..

If we can together bring well being by our designs then..... feel good.
